

VR COVID Selections -- Notes

A more detailed account of the qualifications of each expert is given at the first interview in the full videos. There is a full PDF transcript of all the videos, full audios (if you want to listen while you work), a PDF *Essential Guide to Covid*, a PDF titled *TEN MEDICAL FACTS REGARDING THE COVID-19 EXPERIMENTAL VACCINES* by Dr. Shelley Cole, Medical Director AFLDS, and a PDF of this document included in the USB stick.

The selections below have been made to condense over 26 hours of video to just under 2 hours in order to fit on one DVD. This should give an overview of many of the high points and perhaps give a sample of the different speakers from which to choose any further viewing. Using the Video numbers and the time of each selection below, you can go to the point in the full videos where each selection is taken from in order to see the full context. Obviously, with only about 8% covered there is much to explore, if desired.

I have added links to supplemental online information related to many selections. These notes can be shared separate from the VRCovid series since the links are independent of the series content.

Please let me know if you find errors, bad links, censored links, or have questions/suggestions.

Dr. Zach Bush: Triple-certified M.D. - Interview (2nd of 2 parts)

23:34 American has 4% of global population, but over 20% of deaths from this pandemic
30:45 Since the 1950’s every new vaccine has been followed by increased autoimmune disease
31:18 Autoimmune is your body attacking itself: like rheumatoid arthritis & type 1 diabetes, etc.
31:51 Artificial changes in the adaptive immune system can confuse the innate immune system
32:22 We are about to do something terrifying as far as potential 3 to 5 year consequences
Note: Drs. Bush and Lyons-Weiler hold an evolutionary view that is commonly held. However, natural selection is also compatible with creationism. The theory of evolution is increasingly challenged by new developments. For example, see this discussion on genetic entropy presented at an NIH forum:
